

## GAMBIA

'Once again we found ourselves having to drive all the way to Basse on this one week trip, in search of Egyptian Plover, but sadly this year there were none to be found, a sign of things to come maybe? This unplanned detour did provide us with some extra compensation, not least a magical encounter with breeding Red-throated Bee-eaters, and some stunning Northern Carmine Bee-eaters by the stone circle at Wassu. These were just two of eight species of Bee-eater seen during the trip. Equally colourful were 4 species of Roller and 6 Kingfishers (from the beautiful African Pygmy to the raucous Giant).

As ever there were some surprises including wayward Eurasian Wigeon and Grey Phalaropes along the north road, although for most of the Europeans these were nowhere near as exciting as the Savile's Bustard, Temminck's Coursers, African Hawk Eagle, feeding Ruppell's and African White-backed Vultures, Goliath Heron and Kittlitz's Plover all seen the same day. In fact that day was quite remarkable in that we saw 156 species in the day, even though it was mainly a 'travelling' day!!

The forests of Abuko, Pirang and Kuloro produced so many highlights including Green and Violet Turacos, Western Bluebill, Grey-headed Bristlebill, Yellow-throated Leaflove, Green Hylia, Snowy-crowned Robin-chat, Sulphur-breasted Bush-shrike, Buff-spotted Woodpecker, Scarlet-spectacled Wattle-eye, Yellowbill and nesting Hamerkop.

In the more open areas we were rewarded with Abyssinian Ground Hornbill, Spotted Thick-knee, Senegal Batis, Bruce's and African Green Pigeons not to mention a plethora of raptors including Martial, Tawny, Wahlberg's and Bateleur Eagles, Brown Snake Eagle, and a stunning view of a perched African Hobby.

Tujering and Tanji are always productive and even in the heat of the afternoon one area held White-fronted Black Chat, Fine-spotted and Brown-backed Woodpecker as well as some more familiar European birds on their wintering grounds such as Woodchat Shrike, Whinchat and Common Redstart.

After our long and dusty journey upriver it was wonderful to relax on the creek crawl where herons, egrets and shorebirds lined the mangrove channels. Highlight there was a couple of White-backed Night Herons.

The Gambia is still bird rich, and birds are everywhere, seemingly unafraid of the presence of people. This ensures that so many of the birds we see are seen incredibly well.

Sadly our tour didn't end so well with plane problems leading to an extra night in the country, but I must thank the group for staying in such high spirits right to the very end of our Gambian experience.' – James Lidster.
